INJUNCTION GRANTED IN "A WALTZ DREAM."

Rights of Joseph W. Stern & Coto Publication of Music Are Upheld.

The Interstate Amusement Company, of which Frank McKee and Klaw & Erlanger are directors, through Joseph W. Stern & Co. to-day secured from the Supreme Court an injunction restraining the Continental Publishing Company from continuing the publication of certain music of the opera, "A Waltz Dream," and the injunction was granted.

The papers show that the Interstate Amusement Company has the exclusive rights of production for America, and that Joseph W. Stern & Co. obtained from the Interstate Amusement Company the sole license for the music, that after Stern & Co. had obtained their copyrights and extensively advertised the music the Continental Publishing Company rusned off editions not containing the words as sung in the opera as produced by the Interstate Amusement Company, as it will be produced at the Broadway Theatre on Monday, but with a hurried version of their own.

The Court, in granting the injunction, sustains the rights of the Interstate Amusement Company and Joseph W. Stern & Co. tion of certain music of the opera, "A

Latest Electrical Wonder

Now on exhibition in the Mills Building, 15 Broad street, rooms, 3, 4 and 5, seventh floor.

Showing Batteries that will conveniently and economically light by electricity country houses, churches, theatres and halls, also railway trains, yachts, etc., and that will run by electricity automobiles, launches, fans, sewing machines, dentists', massage and X-ray outfits and many other useful things much more conveniently and economically than they are being operated at present.

This Battery does not require charging like a storage battery. It can consequently be used in isolated places where there is no electric generator. When a new charge is needed it is necessary only to pour out the exhausted liquid and pour in fresh-an operation that can be performed by any one and that requires only a few minutes. The company is prepared to execute orders for the installation of apparatus for the purposes mentioned above. This Battery has aroused the greatest interest. Every day the office has been thronged with enthusiastic men representing many of the most important interests of the country.

The company is moving into its new factory, just completed, at North Philadelphia, Pa., which is equipped to handle a large cutput, and already sufficient orders are on hand to keep it running for several months. As large subscriptions have been made to the stock and many Batteries sold, there will be a sharp advance in the stock in the near future.

The books of the company are open for subscription to

the blood. This vital fluid has become infected with some germ or poison which prevents the place from healing. This infection may be the result of an inactive, sluggish condition of the system leaving the refuse matter of the body to be absorbed into the circulation instead of throwing it off through the usual channels of nature. Another cause is the weakening or polluting of this life stream from hereditary taints, or from the effects of a long spell of sickness, leaving disease germs in the system. When the blood is in this condition a sore cannot heal because the impurities with which the circulation is filled are being constantly discharged into the place to irritate and inflame the tissues and further disease the surrounding flesh. The only treatment that can do any good is one that removes the cause, and for this purpose nothing equals S. S. S. It begins at the fountain head of the trouble and drives out all germs, impurities and poisons, and then the place, being supplied with rich, pure blood, heals naturally and permanently. Local applications assist in cleansing the place, but a cure can only be effected through a Book on Sores and Ulcers and any medical purification of the blood. THE SWIFT SPECIFIC CO., ATLANTA, GA.
